### Life

Life is so strange  
Nothing stays the same  
Everything change  
But who to blame

Life is like a game  
Where you have to lose  
Before you can gain  
To win you have to face the fearful  
rain

In Life.. They always say  
Don't use your heart  
Only use your brain

### BE YOURSELF

Some people may say that average is bad. Well, they're very wrong. When is the last time you heard that someone was perfect. Exactly, because no one is. Well, God is. But you're NOT God. Why waste your time on trying to be normal. Different is better. Normal is just boring. "If you're lucky enough to be different, don't ever change." -Taylor Swift. Taylor Swift is very much correct. Some people worry about their popularity. You won't be popular if you aren't for the real you! So, try your best to be you in the future. You won't regret it.
